50th Anniversary Fund of Joining and Welding Research Institute, Osaka University Fundraising Prospectus

Our institute was formally established in 1972 as the Welding Research Institute on the advice of the Science Council of Japan. It was reorganized into Joining and Welding Research Institute (JWRI) in 1996, and we are proud to announce that 2022 marks the 50th anniversary of its founding.

JWRI plans to carry out various commemorative projects to celebrate its 50th anniversary and to welcome the next brilliant 50 years. For the purpose of promoting these projects, we have launched the “50th Anniversary Fund of Joining and Welding Research Institute,” and we sincerely ask for your generous support. Your contribution would be highly appreciated.

To meet the increased demand for “joining” in industry, and because of the diversification required by the trend towards globalization in manufacturing and in response to scientific and technological progress, JWRI has energetically promoted both fundamental and applied research from its establishment. It has since become the only institute in Japan, and also the world’s leading institute, in the field of welding and joining.

JWRI will perform the research relevant to the demands of society in the 21st century and also to the vision of a successful global society in the 22nd century. Our staff will make continuous efforts to achieve the present and future targets. Our JWRI will play an important role in contributing to the sustainable growth of society through technological innovation in welding and joining.

We hope that you will join us as we move forward into the next 50 years.

TANAKA Manabu
Director and Professor
Joining and Welding Research Institute, Osaka University
